Re: Search Warrant dated December 16, 2022 (Google Ref. No. 28431925)
ESU H 22-304.7, CAUSE#08C01-2212-MC-000113

Dear Sergeant Glogoza:

Pursuant to the Search Warrant issued in the above-referenced matter, we have conducted a diligent search for documents and information accessible on Google's systems that are responsive to your request. Our response is made in accordance with state and federal law, including the Electronic Communications Privacy Act. See 18 U.S.C. § 2701 et seq.

Accompanying this letter is responsive information to the extent reasonably accessible from our system associated with the Google account(s), *FOOJACKA0@GMAIL.COM*, as specified in the Search Warrant. We have also included a signed Certificate of Authenticity which includes a list of hash values that correspond to each file contained in the production. Google may not retain a copy of this production but does endeavor to keep a list of the files and their respective hash values. To the extent any document provided herein contains information exceeding the scope of your request, protected from disclosure or otherwise not subject to production, if at all, we have redacted such information or removed such data fields.

Your legal request seeks content or other records for an account that is not identified by its email address (or another unique Google account identifier). For that account, Google has produced subscriber information, as defined in 18 USC § 2703(c)(2). If other records or content are needed for that account, you may submit new legal process specifically identifying that account.

Pursuant to your request for Google account(s) linked by creation IP address, contained in this production is responsive data pertaining to un-purged Google account(s) that accepted the Terms of Service using the same IP address within one day of the Terms of Service acceptance date for the target account(s). A "No content" file will appear in the relevant production folder if there are no records showing accounts linked by these parameters.

To the extent that you have requested data related to the Google Chat service, and the target account participated in a Chat Room owned and controlled by a Google Workspace customer, included in the production is information sufficient to identify (a) the Workspace customer domain that owns and controls the Chat Room and records associated with the same; (b) the Workspace-owned Chat Room in which the target account participated; and (c) the date the target account joined the Workspace-owned Chat Room.¹

To the extent that the Google account(s) targeted in the legal request have associated Google Pay profile(s), the production will include the target's Google Pay Customer Information, Billing information, and Transactions for Payments made to Google, if requested in your legal process. If you wish to obtain stored value accounts and events, or additional Sensitive Personally Identifiable Information (SPII) that Google may store, please email uslawenforcement@google.com with (a) the Google Reference Number, (b) the target account(s) for which additional records are requested, (c) the specific additional data points you are requesting, and (d) the language in the legal process that you believe entitles you to such records. We will review your request promptly and provide you with any responsive information.

For a Google Custodian of Records, we will require a subpoena and confirmation from you of the time and date of the appearance, the scope of testimony, any Google Reference Number(s) associated with the case, and the travel for the appearance at least one week in advance in order to identify, make the appropriate plans for, and prepare a custodian for trial.

Finally, in accordance with Section 2706 of the Electronic Communications Privacy Act, Google may request reimbursement for reasonable costs incurred in processing your request.

Regards,

Jonathan Krauser

¹ See the UserInfo.zip file, where [obfuscated_customer_id] indicates if a Chat Room is owned and controlled by a Workspace customer, and the domain of the [inviter_user] identifies the Workspace customer. If you wish to obtain Chat records associated with the target account that are owned and controlled by the Workspace customer, please use the information provided in this production to either request that information directly from the Workspace customer, see *Seeking Enterprise Customer Data Held by Cloud Service Providers*, U.S. Dep't of Justice (Dec. 2017), <https://www.justice.gov/criminal-ccips/file/1017511/download>, or to obtain appropriate legal process that identifies the Workspace-owned Chat Room and the Workspace customer domain for those records.
