Monica Abbott's Post

11h ·

In the past 24 hours I have seen billboards and plenty of yard signs for prosecutors running this term. 2 stand out to me because I used them as legal counsel during this child molesting case to secure and protect the rights of my youngest daughter from the child molester.

one in particular stands out and I have to say something

Stacey Diener

I happen to think in my opinion you're a piece of shit.

You took me on as a client, knowing damn well that you had already applied at Carroll County as a special prosecutor.
I barely had any money, but knew I needed to protect my daughter from a fucking child molester. you took my money and then quit me weeks later... two weeks before our first court date all because you had already applied at Carroll County to be a special prosecutor and therefore couldn't be on my case.

Your single action of greed -to make extra money off of me in the meantime while you were waiting on an answer from Carroll County shows what type of woman you are and what type of prosecutor you are.

Truly, you are motivated by money there is no human part of you left. You disgust me.

The second lawyer I retained was out of Lafayette- his name is Dylan M. I had to get this lawyer because of the actions of the first one.

This Lawyer while he may still have a chance to be a decent human- he lacks life experience- when I expressed my concerns about wanting to protect my daughter from a child molester he pretty much laughed and didn't view it as a major concern because well, the child molester is going to go away for life and all my concerns were not valid.
I'd like to say that yes in our case, the child molester... three years later did get 126 consecutive years, but we had to fight for that.

There was a change of judges changes, of prosecutors and that could not be predicted, and in the meantime, my concerns as a parent to protect my child from a child molester we're not that important to him. in fact he allowed for a court hearing I had to be a part of to sit in his inbox for several months before he notified me about it two weeks before the court date... it wasn't a concern for him.. that's sad.. his EGO is too big for serious crimes.

Now, this is all my opinion BUT I would've kept my mouth quiet had I not seen these two unqualified 'professionals 'trying to run for prosecutor. it makes me sick.

May their financial greed be their own undoing.

And while I'm at it, fuck those who protect child molester and are financially greedy. May karma be your bestie and may life give you all that you deserve including loneliness along with all your monies

I would file formal complaints with the Indiana Supreme Court Disciplinary Commission. Not sure the second one would qualify, but the first one against Stacey Diener seems legitimate. She should reimburse the fees if she knew at the time she wouldn't be able to complete the case.

Thank goodness you're speaking out about your horrible experience. I'm so sorry you and your daughter had to go through that. I'm sending you all my prayers and support.
We all know they were too busy making a name for themselves to care about a child that was molested. Seams to be a reacurrimg thing in Carroll County. 😡😡😡😡😡😡😡

Kathy Clendening oh I certainly agree. Nick didn't have the time of day for my daughter's case and spent more time lecturing me about why I cared so much about the legal ongoings.
Pretty much as the parent of the victim, I was told I needed to be quiet and just let the legal people do what they do.
The thing is, Nick was late to court on a Monday and I didn't even know he was assigned to our case, but I guess Carroll County stopped paying a special prosecutor that had been with us the whole time... for months.. no one told us about the change.. then I show up to court and the prosecutor wasn't there.. the child molester and his defense team were all there and ready... after a while of no prosecutor showing up to court, I left the courtroom to go down to the prosecutors office and that's when I found out Nick was our prosecutor and that's when he lectured me about why I cared so much about the legal ongoings. Belittled me. All because I questioned things about my child's case and he did not have any knowledge or answers.
The things I questioned were not small. In fact, we were waiting on an answer from the judge about if the defense gets to use my daughter's mental health records that they illegally obtained.. now, this is not Nick's direct quote, but he told me he did not care about the defense obtaining my daughter's mental health records illegally!! - I got nothing for this man.

He in my opinion, is not a good human and that says a lot because Im a lover of humanity. but my dad also taught me to trust my gut and call it how I see it.

So ol' slick Nick, is not a good man in my books. He lacks the moral character that I seek when voting for a prosecutor. I mean a degree can only carry you so far in life.. you actually have to be a decent human and earn your place within your community to be a successful professional of value.

I'd like my tax money to fund someone else please

You are an amazing mother and I don't know how you and your daughters got though this situation. And to think he is a father with daughters, but belittled you for wanting to protecting yours.

I'd like my tax money to fund someone else please too

I personally think all the news channels need to know about this. But that's just me.

Corrupt bastards.

Politician accountability needs to be at the forefront of what's going on in these times.

And in the terms of accountability, I mean, if they did something that was illegal they need to do time just like the common United States resident or the common state of Indiana resident. They should get no special favors. Because they are there for us not for themselves.

Monica Abbott I absolutely wouldn't be shocked.

When politicians get in office, they figure any and every way to line there pockets and piss on the citizens.
